**ADDITIONAL COMMENTS**

1. On site to conduct closure inspection of the N0232 Notified LCID. Met with Mr. Harper and Mr. Laughter to re-confirm that no excavation or disposal activities were conducted at this location due to the presence of the closed Weaverville Landfill (Old Landfill Inventory: Weaverville Landfill NONCD0000161).
2. The previous site inspection report (dated February 16, 2011) outlined the requirement that the Town document in writing the acknowledgement that no excavation or disposal activities occurred on this parcel, under the N0232 Land Clearing and Inert Debris Notification, and that no future solid waste disposal activities will occur under this Notification. The required letter, dated October 19, 2012, was received at the Asheville Regional Office and the Notification will be closed with the Section.
3. Regional office records indicated that a Yard Waste Facility Notification was submitted to the section and approved on March 15, 1994 (YWN0226). The types of waste to be received at the site were listed as: leaves, grass clippings, chipped tree limbs. This notification governs the activities currently ongoing at the facility (leaf collection, composting of yard waste, treatment and processing of Land Clearing debris). **Note that this type of notification must be submitted on an annual basis** in order to remain current and active with the Section. Our records indicate that this notification has lapsed. Please submit a Yard Waste Notification form within the next 30-days. <http://portal.ncdenr.org/web/wm/sw/yardwaste> For questions regarding this form/process, please contact Becky Whetstone (919-707-8285).

Please contact me if you have any questions or concerns regarding this inspection report.
